Sales analysis visuals

Key findings

Area	Finding
Region	East generated the highest delivered revenue in this practice dataset (■978,148.72).
Product	Laptop was the highest-revenue product (■1,699,475.77).

Sales channel	Website generated the highest delivered revenue (■1,435,565.16).

Important: This is synthetic practice data, not real company/customer data. Profit is estimated using assumed margins and is not audited financial performance. This PDF is a static report; the interactive Excel dashboard is included separately in the GitHub project package. The Power BI guide and DAX measures are included, but a native .pbix file is not included.
